
Ice House 2006 Northern Ice Cabernet Sauvignon

Date Wed 05 Mar 2008 11:18:03 AM EST

Description

This is the second wine I have tried from the Ice House winery in Niagara (a new winery whose sole purpose is the making of icewine) and I have to admit they're making some damn-fine ones (they'd better considering that's all they make). The nose is strawberry, raspberry and pomegranate, while in the mouth it's red fruit dominant (as expected) with tart strawberries fighting it out for flavour supremacy with ripe raspberries ... giving the full effect of a red berry jam. Pair with toast (of the Melba variety).

Wine - Food

Full name of wine: The Ice House 2006 Northern Ice Cabernet Sauvignon Icewine

Notes

Available at the winery and at Vintages (March 15, 2008)

Varietal / Grape
